

**SENSORY  
 TESTIMONIAL**

The taste is so good and nice. The kid will like it very much. Suitable for all the people. Noodles are a little chewy and the broth has hints of curry, the seasonings provide a broad range of flavours, both spicy and sweet.

Like spicy? Like curry? This one fills both criteria and then some. The noodles are good but the real star here is the broth; a bit greasy and so flavourful. Not only is there a curry hotness but also sweetness too.

It also has some interestingly fluffy, but not spongy, noodles. They were light and had good character. The spicy broth and the little bits of curry made it a very memorable, warming your insides on a cold day.

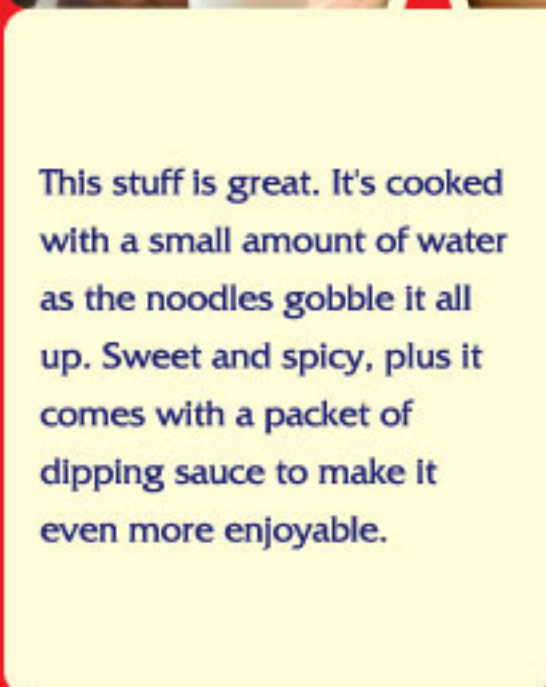

I like these. A lot! The paste flavour is excellent! It gets into everything. The noodles were so good and really surprised me in quality. They had a very nice sauce taste! The broth was very rich and tasted nice.

Everything was delicious and perfect. Good with a moderate spiciness level.

Looks like 'Mee bandung'. Excellence gravy taste with thick soup base. Spiciness and sweetness was nice and complete taste. Wonderful!

This stuff is great. It's cooked with a small amount of water as the noodles gobble it all up. Sweet and spicy, plus it comes with a packet of dipping sauce to make it even more enjoyable.

Delicious with the taste of shrimp paste and dried shrimp and the smell like laksa.
